- 1 Blanket

### **A Note on Electronics:**

Not only are cellphones and electronics expensive, and can get stolen or lost, but their usage can also interfere with and even sabotage a child's overall experience at camp. A camper that spends so much time immersed in technology and communication may do so at the expense of getting to know fellow campers and counselors. The summer camp offers a great opportunity to learn about and navigate social situations while not being constantly connected to and immersed within a digital/virtual world. To reiterate, we strongly encourage you to have your child leave their electronics at home. Camp Reece will not be responsible for the loss and/or damage of any camper's electronic equipment, including but not limited to cell phones, laptops, tablets, Kindles, cords, and chargers. Please note that use of electronics will be VERY limited and at discretion of staff. Remember, this is camp and we want to give our campers a break from their usual routine! If you pack electronics, please LABEL everything (including cords, chargers, etc.)
